Subject: Thank You

Dear Byron and Patrick,

A short note of thanks for the time you devoted to our meeting on Friday. We appreciated your willingness to listen and were encouraged that you are open to reviewing the manner in which EPA has used Section 114 of the Clean Air Act as an enforcement tool to establish new permit limits outside of the established rulemaking process. Please let me know if there is anything I can do to assist in that review.

In the interim, if you would like to visit one of our cement manufacturing sites I am happy to arrange that for you. Our Union Bridge, MD plant is within a 90 minute drive from Washington, DC and a tour of the facility would provide a great perspective on the complexity as well as the precision involved in making cement.

Thanks again.

Best,

Tom
